Part II: Narrative

Please be concise. Use bullets where possible.

1. Describe the **target population** for the Project. Specifically identify who the project will serve. i.e. individuals; families; chronic; Special populations. What is the **average acuity** level?

If the Project has admission preferences for different sub-populations, please explain.

The PSH Hope Housing Program target population is chronically homeless individuals and families. If the by-names list of the chronically homeless has been exhausted at any point in time, this program may also serve individuals and families whose SPDAT scores are 9 and higher. The priority among those needing this service are those who are determined to be chronically homeless; all referrals are processed through the Coordinated Entry Agency. Through our ongoing partnership with Domestic Violence services, Youth outreach, and Veterans' agencies, we will ensure that vulnerable populations who meet the chronically homeless definition and/or have a high SPDAT score are effectively prioritized and engaged in the PSH Hope Housing Program, as appropriate to meet their needs and adhere to program requirements.

2. Provide examples of how the **Project outcomes** will contribute to improving the CoC's system-wide performance, as measured by HUD's system performance measures below:
 - Reducing the length of time people are homeless:
 - o By utilizing a housing first approach with the most vulnerable clients, we reduce the wait time for housing by first prioritizing housing placement before working to address the factors that originally led to their homelessness.
 - o After referral from the CEA each household is contacted and supplied with landlord resources and active assistance in locating viable permanent housing, as well as assessment of other housing-related needs to facilitate effective reduction of time in shelter or on the street.
 - o Advent House represents Ingham County in the tri-county PATH outreach initiative. This puts us on the front line of addressing street homelessness, and assists us with working side by side w/ the CEA which is beneficial in accessing housing services including our and other PSH programs.
 - Increasing discharges to permanent housing:
 - o The progressive case management that every client receives employs client-centered and strength-based approaches. The ultimate end goal for each client is achieving housing stability through their unique and individualized service plans. This results in a successful discharge to PH.
 - o Prior to discharging, case managers and clients work together to make connections for a warm handoff to mainstream community resources. This assists the client while in PSH, and ensures a successful transition to PH.
 - o Advent House programs work closely with CoC partners to ensure clients have access to all possible permanent voucher options, including Move Up Vouchers and HCV opportunities offered through area HCV administrators.
 - Preventing returns to homelessness (reducing recidivism):
 - o Through the intensive step-down case management clients receive, clients can identify their strengths and build upon them to address barriers to stable housing. By setting and achieving goals, clients learn how to better advocate for themselves and sustain their housing.
 - Increasing client income:
 - o All clients participate in creating a service plan to help guide the progressive case management that they receive. Financial stability is a key factor in that service plan to ensure they can meet their permanent housing needs.
 - o A large majority of PSH participants are strong SSI candidates, and if they have not already applied for it will get a referral to a SOAR specialist, Disability Appeals

Advocates, or the VOA Ability Law Clinic. Other clients may have an interest in gaining employment, and will receive assistance with resume development, job skills training, and Michigan Works referrals. Advent House Ministries has maintained resources and employment connections from our time with the Good Works Employment Program and current Offender Success program.

Advent House recognizes the importance of accurate and timely system-wide data entry and management, and ensures that our data regarding all of the above performance measures is available to the HMIS system administrator.

3. Using Exhibit B-Describe the Project's implementation of the **Housing First** approach. Include 1) eligibility criteria; 2) process for accepting new clients; 3) process and criteria for exiting clients as it pertains to substance use, income, criminal records (with exceptions for restrictions imposed by federal, state, or local law or ordinance), marital status, familial status, actual or perceived sexual orientation, gender identity. Include descriptions of program policies and procedures to address situations that may lead to termination. How will the project assist clients in finding decent housing?

- 1) Eligibility Criteria:

Eligibility will be solely determined by what is defined as appropriate under HUD guidelines for PSH enrollment. Clients will not have preconditions or barriers to entry based on things like sobriety, criminal history, or service participation requirements.

- 2) Process for Accepting New Clients:

After receiving an eligible referral from the CEA, the program supervisor will review to ensure the client/household meets the minimum eligibility criteria. If the CoC By-Name-List has determined that all chronic clients have been assisted, eligibility will revert to a "most vulnerable" prioritization.

- 3) Process and Criteria for Exiting Clients:

Exits can be self-directed by the client when their service goals are met, or suggested through a service plan review initiated by case manager. If there is a compliance concern, case managers will make every effort possible to address the matter before an outcome will result in having to discharge a client.

4. Explain how the **needs assessment** process ensures that participants are directed to appropriate services. How are participants connected to **mainstream resources**? Are there **MOUs or letters of commitment**? (These must be dated between May 1, 2018 and September 18, 2018.) Include collaborations with other programs or agencies. For renewals, how successful have these collaborations been?

(See Mainstream Resources definition in glossary)

Advent House works together with CEA staff to ensure all PSH referrals meet the minimum program eligibility criteria. Attention is paid to the SPDAT score of the referral which has a likely correlation between vulnerability and need. Once enrolled clients receive the following services: (1) comprehensive assessment, (2) individualized case planning, (3) linking/referrals to appropriate community supports, and (4) monitoring (for up to six months after finding permanent housing).

Advent House regularly collaborates with the following: the Department of Health and Human Services, the Financial Empowerment Center, family and parenting resources, the Volunteers of America Medical and Dental Clinics, Community Mental Health, Mid-Michigan Recovery Services, Michigan Rehabilitation Services, Sparrow Health Systems, Child &

Family Charities, local Veterans Affairs resources, local Domestic Violence resources, as well as other area resources. These partnerships have been vital to the success of our program participants.

5. How will clients be assisted in maximizing their ability to live independently? What **criteria** are used to evaluate participants' readiness to "graduate" or **transition** from the project to other permanent housing?

An important part of successful case management is the individualized evaluation of which skills and tools are necessary for long-term housing stability. Whether it is learning housekeeping tips, receiving budgeting assistance, or addressing mental health concerns, Advent House Ministries utilizes harm reduction and trauma-informed-care models to best assist clients.

Advent House Ministries participates with the CoC Move Up Voucher Committee, and completes an assessment on any current PSH client who is identified as being a potential referral for that voucher. In addition to this, Advent House Ministries has had success with transitioning clients to a Lansing Housing Commission HCVs or project based voucher opportunities. Additionally, clients have the choice to transition to whichever next housing opportunity they feel is the best fit for them with the skills they've acquired.

6. CoC policies require that participants be **referred from the Coordinated Entry Agency (CEA)**. What is your estimate of the % of referrals you accept from the CEA? Please explain how you track/verify this information.

The PSH Hope Housing Program receives 100% of its referrals from the CEA. In the coming grant year the PSH Hope Housing Program will continue our collaboration with the CEA and area agencies, as described above, to ensure that we are reaching out to the most at-risk among those who are in shelter. This program will remain in regular contact with Coordinated Entry Agency staff both by phone and email for individual client needs; Coordinated Entry Agency staff is on-site at Advent House Ministries, Inc. on a weekly basis, as Advent House Ministries is a contact location for Coordinated Entry Agency in the community at large.

7. How will the project **engage those with the most severe needs or vulnerabilities, disabilities or limited English proficiency** per the GLHRN CoC/HUD prioritization policy? Describe any Outreach efforts. Reaching participants throughout the County that may not otherwise have known of the Project?

At present clients are only eligible for AHM PSH entry if they're referred by the CEA. Anyone who meets the minimum HUD PSH program criteria is eligible, and AHM is committed to serving those most vulnerable in our community. Occasionally staff will receive a call, or a walk-in self-referral. Staff makes time to assess the need, and refer back to the CEA as appropriate.

Accommodations are met whenever necessary, as client needs vary depending on disability severity. In instances where English proficiency is an issue, translator services are engaged to ensure all clients are able to receive the same level of care.

8. Are there any **outstanding Civil Rights matters** or financial obligations to the federal government? Yes _____ No X Please explain your experience in managing federal grants. (50 words or less)

Advent House Ministries, Inc. has been managing federal grants for Housing and Supportive Services programs for over 20 years and consistently has met or exceeded grant management and outcome expectations.

9. Who is the agency contact person knowledgeable about **Fair Housing** and HUD priorities?
Name: Susan Cancro or Maureen Nagy Contact # 517-485-4722
